

# SOUND OF CHANGE

From all of us at AB, thank you for joining us today! We hope you **hear the sound of change** - our rally cry, for each of us, to take action to champion the families we serve. To view the recorded session please visit the [AB Exhibitor](#) page from the Conference site.

A big thank you to our keynote speaker, Dr. Dana Suskind, and expert speakers, Drs. Denise Thomas, Cara Donahue and Christine Brown. For inspiring all parents, and EI providers, to believe in each **child's potential!**

If you have more questions, please find below their contact information and relevant resources.

## Building a Parent Nation

**Dana L. Suskind, MD**  
The University of Chicago  
[parentnation@bsd.uchicago.edu](mailto:parentnation@bsd.uchicago.edu)

- Sign Up for the Building a Parent Nation newsletter
- Host a Parent Nation book club

- Follow our Action Guide!

The first 100 registrants will receive a copy of Dana Suskind's book **Parent Nation**. Remaining registrants will be placed on a waiting list. Please click the following link and complete the registration form [HERE](#)

## Empowering Possibilities

**Denise Thomas, Au.D.**  
[DThomas@luriechildrens.org](mailto:DThomas@luriechildrens.org)

**Cara Donahue, Au.D.**  
[CDonahue@luriechildrens.org](mailto:CDonahue@luriechildrens.org)  
Lurie Children's Hospital of Chicago

Amplified: Presented by Lurie Children's - a podcast mini-series about growing up with hearing loss. Available on Apple Podcasts, iHeartRadio, TuneIn, Spotify, Google Podcasts, and Stitcher

MARVEL CI UPGRADE EXPERIENCE  
[Take home message](#)

The new Marvel CI technology has opened so many possibilities for our patients and parents. From an audiologist perspective, upgrading our patients to Marvel CI has been nearly seamless.

## Helping Children Thrive

**Christine Brown, Au.D.**  
Vanderbilt Bill Wilkerson Center  
[christine.l.brown@vumc.org](mailto:christine.l.brown@vumc.org)

IMPROVING CI OUTCOMES BY  
IMPROVING DAILY CI USE  
[Take home message](#)

Information obtained from cochlear implant data logs and conversations with families can be useful for informing counseling and identifying solutions for situations in which wear time is less than optimal.
